1. INTRODUCTION

1.1. PROVIDER DIRECTORY PROJECT

The Washington Health Benefit Exchange (hereafter known as HBE or the Exchange) is initiating this Request for Proposals (RFP) to solicit proposals from qualified Vendors (hereafter called the Vendor) to provide a commercial off the shelf (COTS) provider directory solution to replace HBE's existing provider directory. The preferred solution will allow HBE customers to easily view, compare, and select a plan that contains their desired provider and/or search for providers from an array of health or dental plans, including Medicaid and private insurance plans.

The goal of this project is to improve the quality of the provider directory data for health and dental plans offered on *Washington Healthplanfinder* (HPF) and ensure that consumers can easily search and access accurate and complete provider information.

Any proposed provider directory solution must integrate with HBE's *Washington Healthplanfinder* system. In addition, the vendor must provide ongoing services to ensure the provider data listed in the directory remains accurate and up to date.

This project is on a very tight timeline. Installation/interface discussions with HBE's System Integrator will begin immediately after contract execution. The final product must be tested and ready for production no later than September 21, 2017 to meet HBE's open-enrollment readiness deadline.

1.2. HBE BACKGROUND

The Washington Health Benefit Exchange was created in state statute in 2011 as a public-private partnership. The Exchange is a health insurance marketplace where consumers may enroll in individual or small employer group health plans and family or pediatric-only dental plans. The Exchange is also the marketplace where newly eligible adults may enroll in Washington Apple Health Medicaid and where families renew their coverage in Washington Apple Health Medicaid and CHIP coverage (WAH). The Exchange is responsible for the operation of *Washington Healthplanfinder*, which provides consumers with online access to the Exchange's marketplace. The marketplace also provides in-person assistance made available statewide by the Exchange's Customer Service Center (call center), agents and brokers, certified assistors, and community partners.

The Exchange continues to grow as it prepares for its fifth open enrollment. Since becoming the single point of entry for WAH and QHP customers, the Exchange now serves more than 1.8 million residents annually. In the fourth open enrollment period, the Exchange expanded its product offerings to include family dental plans, allowing families to secure dental coverage for all family members through the Exchange for the first time. As of January 2017, more than 220,000 Washington residents had selected health plans during the fourth open enrollment period and more than 1.6 million individuals enrolled in WAH.

For further information on HBE, please use the following link: <http://HBExchange.org/about-us/what-exchange/>

1.3. VENDOR INFORMATION

Washington Healthplanfinder currently has an integrated provider directory tool within its anonymous browsing and plan shopping pages. This tool allows consumers to search for a single provider or a facility/clinic. Results are displayed in the plan shopping pages,

indicating whether a consumer's provider is in or out of network and allowing consumers to filter plans based on this information (See Appendix D for *Washington Healthplanfinder* screen shots depicting current provider directory functionality in anonymous QHP browsing). Issuers are currently required to provide monthly updates to their provider directory data by the 15th of each month.

For the purposes of this RFP, Vendor can assume a potential user base of 1.8 million customers or more, in addition to a substantial quantity of anonymous shoppers through the "anonymous browsing" feature of HPF.

The Exchange expects to maintain between 100 and 200 health and dental plans on its product shelf. For reference, please see the existing 2017 plan year Exchange QHPs and QDPs at:

http://www.HBExchange.org/wp-content/uploads/2015/10/HBE_EB_160915_Plan_Certification_Packet.pdf.

The provider directory also serves WAH enrollees through HPF. For more information on WAH, including what managed care issuers enrollees can choose from, see:

<http://www.hca.wa.gov/assets/free-or-low-cost/19-024.pdf>.

See the Appendix C for a list of issuers with products available in the Exchange for 2017 that participate in the *Washington Healthplanfinder* provider directory.

In providing Provider Directory services, the Vendor will be expected to collaborate with Exchange staff, stakeholders, and the Exchange's system integrator. The Vendor will need to manage the activities of its team so that Provider Directory changes will be implemented within a tight timeframe.

1.4. PERIOD OF PERFORMANCE

The initial period of performance of a Contract resulting from this RFP will begin on or about May 8, 2017 and will end on June 30, 2019. At HBE's sole discretion, the contract may be extended for up to four (4) additional years, in whatever time increments HBE deems appropriate, not to exceed June 30, 2023.

1.5. SCOPE OF SERVICES

The desired system is a vendor-supported, upgradeable, configurable solution with a customizable interface as specified below. 1.5.2. Optional Services

In addition to the mandatory requirements provided in section 1.6, Vendor may also propose a provider directory User Interface (UI) that utilizes the provider directory data delivered by Vendor. The optional/desired UI and customer experience requirements are described in Section 1.7.

- The HBE failed to follow procedures established in the solicitation document, or applicable state or federal laws or regulations; or
- There was bias, discrimination or conflict of interest on the part of an evaluator.

Protests not based on these criteria will not be considered.

9.2.2.3. Format and Content:

Vendors making a protest shall include in their written protest to HBE all facts and arguments upon which the Vendor relies, and shall be signed by a person authorized to bind the Vendor to a contractual relationship. Vendors shall, at a minimum, provide:

- Information about the protesting Vendor; name of firm, mailing address, phone number and name of individual responsible for submission of the protest;
- Information about the acquisition; the HBE reference number (HBE13-004), acquisition method, the HBE Coordinator;
- Specific and complete statement of the HBE action(s) being protested;
- Specific reference to the grounds for the protest; and
- Description of the relief or corrective action requested.

9.2.2.4. HBE Review Process:

Upon receipt of a Vendor's protest, HBE will postpone signing a Contract with the ASV until the Vendor protest has been resolved.

HBE will perform an objective review of the protest, by individuals not involved in the acquisition process being protested. The review shall be based on the written protest material submitted by the Vendor and all other relevant facts known to HBE.

HBE will render a written decision to the Vendor within five (5) Business Days after receipt of the Vendor protest, unless more time is needed. The protesting Vendor shall be notified if additional time is necessary.

9.2.3. HBE Determination

The final determination shall:

- 1) Find the protest lacking in merit and uphold the HBE's action; or
- 2) Find only technical or harmless errors in the HBE's acquisition process conduct, determine the HBE to be in substantial compliance, and reject the protest; or
- 3) Find merit in the protest and provide the HBE with options that may include:
 - Correct errors and reevaluate all Responses; or
 - Reissue the solicitation document; or
 - Make other findings and determine other courses of action as appropriate; or
- 4) Not require the HBE to award the Contract to the protesting party or any other Vendor, regardless of the outcome.

The resulting decision is final; no further administrative appeal is available.

EXHIBIT A-CERTIFICATIONS AND ASSURANCES

Issued by the Washington Health Benefit Exchange For RFP 17-004 – Provider Directory Services

We make the following certifications and assurances as a required element of the Response, to which it is attached, affirming the truthfulness of the facts declared here and acknowledging that the continuing compliance with these statements and all requirements of the RFP are conditions precedent to the award or continuation of the resulting Contract.

The prices in this Response have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement with any other offer or competitor relating to (i) those prices, (ii) the intention to submit an offer, or (iii) the methods or factors used to calculate the prices offered. The prices in this Response have not been and will not be knowingly disclosed by the offer, directly or indirectly, to any other offer or competitor before Contract award unless otherwise required by law. No attempt has been made or will be made by the offer to induce any other concern to submit or not to submit an offer for the purpose of restricting competition. However, we may freely join with other persons or organizations for the purpose of presenting a single proposal or bid.

The attached Response is a firm offer for a period of 120 days following the Response Due Date specified in the RFP, and it may be accepted by HBE without further negotiation (except where obviously required by lack of certainty in key terms) at any time within the 120-day period. In the case of protest, your Response will remain valid for 180 days or until the protest is resolved, whichever is later.

In preparing this Response, we have not been assisted by any current or former employee of the Health Benefit Exchange or the state of Washington whose duties relate (or did relate) to the HBE's solicitation, or prospective Contract, and who was assisting in other than his or her official, public capacity. Neither does such a person nor any member of his or her immediate family have any financial interest in the outcome of this Response. (Any exceptions to these assurances are described in full detail on a separate page and attached to this document.)

We understand that the HBE will not reimburse us for any costs incurred in the preparation of this Response. All Responses become the property of the HBE, and we claim no proprietary right to the ideas, writings, items or samples unless so stated in the Response. Submission of the attached Response constitutes an acceptance of the evaluation criteria and an agreement to abide by the procedures and all other administrative requirements described in the solicitation document.

We understand that any Contract awarded, as a result of this Response will incorporate all the solicitation requirements. Submission of a Response and execution of this Certifications and Assurances document certify our willingness to comply with the Contract terms and conditions appearing in Exhibit C, or substantially similar terms, if selected as a contractor. It is further understood that our standard contract will not be considered as a replacement for the terms and conditions appearing in Exhibit C of this RFP.

EXHIBIT B - COST PROPOSAL WORKSHEET

Instructions

The Exchange requires that the below price tables be completed as they are presented. Failure to complete the price tables may disqualify the Bidder's proposal. All assumptions or constraints made in arriving at the prices proposed in these price tables must be clearly described. As specified in the RFP, Bidders are encouraged to include a narrative to describe the assumptions on which this price response is based.

The Exchange does not seek to specify the format, sequence or timing of any payments as part of this request and will consider these items as part of the contracting process, including "at-risk" reimbursement arrangements whereby the Exchange makes payment to the Bidder only upon completion of the project or major milestone activities.

Bidder must provide a cost for the proposed scope of work described in Section 1.6 and, as applicable, Section 1.7 of the Request for Proposals ("RFP").

For Mandatory requirements (Section 1.6), the cost response must detail the costs for the following segments of work (10 points):

1. Implementation of the Provider Directory; and
2. Ongoing licensing and operations costs during time period from implementation through the end of the first contract term; and
3. Any one-time fees; and
4. Any ongoing data service costs for services, as outlined in section 1.6.2
5. Any anticipated cost for ongoing licenses, maintenance, and operations (4 years, in 1 year increments), running from July 1 – June 30 of each year. These will take effect after the expiration of the initial contract term on June 30, 2019.
6. Hourly time and material costs for any possible future configurations, customizations, or new integrations that may be requested through an amendment or change request.

For Optional requirements (Section 1.7), the cost response must also detail the costs for the following additional segments of work (5 Points):

7. Implementation of the Proposed Optional User Interface Functionality; and
8. Any one-time fees related to the user-interface (i.e. Branding, Spanish translations, etc.).
9. Any operations cost (i.e. maintenance fees, annual hosting fees, etc.) during time period from implementation through the end of the first contract term (These costs must be a fixed amount, not variable by the number of users using the tool).

Bidders must use the template provided below as a guide to providing detailed cost for each phase/component of delivery (e.g., development, testing) and ongoing support to submit their financial proposal. Bidders must include all costs associated with their proposed solution, including but not limited to: administrative; facilities; travel; labor; licenses; and taxes. **No additional fees or costs will be considered after award.**

Hard drives that have contained sensitive data will be wiped with a method that will render the deleted information irretrievable.
 - b. Network server disks. Data stored on hard disks mounted on network servers and made available through shared folders. Access to the Data will be restricted to Authorized Users through the use of access control lists which will grant access only after the Authorized User has authenticated to the network using a Unique User ID and Hardened Password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Data on disks mounted to such servers must be located in an

area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.

For EXCHANGE Confidential Information stored on these disks, deleting unneeded Data is sufficient as long as the disks remain in a Secured Area and otherwise meet the requirements listed in the above paragraph. Destruction of the Data as outlined in Section 5. Data Disposition may be deferred until the disks are retired, replaced, or otherwise taken out of the Secured Area.

- c. Removable Media, including Optical discs (CDs or DVDs) in local workstation optical disc drives and which will not be transported out of a secure area. Sensitive or Confidential Data provided by the EXCHANGE on removable media, such as optical discs or USB drives, which will be used in local workstation optical disc drives or USB connections shall be encrypted with 128-bit AES encryption or better. When not in use for the contracted purpose, such discs must be locked in a drawer, cabinet or other container to which only authorized users have the key, combination or mechanism required to access the contents of the container. Workstations which access EXCHANGE Data on optical discs must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
- d. Optical discs (CDs or DVDs) in drives or jukeboxes attached to servers and which will not be transported out of a secure area. Data provided by the EXCHANGE on optical discs which will be attached to network servers shall be encrypted with 128-bit AES encryption or better. Access to Data on these discs will be restricted to authorized users through the use of access control lists which will grant access only after the authorized user has been authenticated to the network using a unique user ID and complex password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Data on discs attached to such servers must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
- e. Paper documents. All paper records must be protected by storing the records in a secure area which is only accessible to authorized personnel. When not in use, such records must be stored in a locked container, such as a file cabinet, locking drawer, or safe, to which only authorized persons have access.
- f. Access via remote terminal/workstation over the State Governmental Network (SGN) or WA Health Benefit Exchange network (EXCHANGE Network). Data accessed and used interactively over the SGN or EXCHANGE Network. Access to the Data will be controlled by EXCHANGE staff who will issue authentication credentials (e.g. a unique user ID and complex password) to authorized contractor staff. Contractor shall have established and documented access termination procedures for existing staff with access to EXCHANGE Data. These procedures shall be provided to EXCHANGE staff upon request. The Contractor will notify EXCHANGE staff immediately whenever an authorized person in possession of such credentials is terminated or otherwise leaves the employment of the contractor, and whenever a user's duties change such that the user no longer requires access to perform work for this Contract.
- g. Access via remote terminal/workstation over the Internet through Secure Access Washington. Data accessed and used interactively over the Internet. Access to the Data will be controlled by EXCHANGE staff who will issue remote access authentication credentials (e.g. a unique user ID and complex password) to authorized contractor staff. Contractor will notify EXCHANGE staff immediately whenever an authorized person in possession of such credentials is terminated or otherwise leaves the employ of the contractor and whenever a user's duties change such that the user no longer requires access to perform work for this Contract.

- h. Data storage on portable devices or media.
 - (1) EXCHANGE Data shall not be stored by the Contractor on portable devices or media unless specifically authorized within the Special Terms and Conditions of the contract. If so authorized, the Data shall be given the following protections:
 - (a) Encrypt the Data with a key length of at least 128 bits using an industry standard algorithm (e.g., AES, *Twofish*, *RC6*, etc.)
 - (b) Control access to devices with a unique user ID and password or stronger authentication method such as a physical token or biometrics.
 - (c) Manually lock devices whenever they are left unattended and set devices to lock automatically after a period of inactivity, if this feature is available. Maximum period of inactivity is 20 minutes.

Physically protect the portable device(s) and/or media by

- (d) Keeping them in locked storage when not in use
 - (e) Using check-in/check-out procedures when they are shared, and
 - (f) Taking frequent inventories
- (2) When being transported outside of a secure area, portable devices and media with confidential EXCHANGE Data must be under the physical control of contractor staff with authorization to access the Data.
 - (3) Portable devices include any small computing device that can be transported. They include, but are not limited to; handhelds/PDAs/phones, Ultramobile PCs, flash memory devices (e.g. USB flash drives, personal media players), and laptop/notebook/tablet computers.
 - (4) Portable media includes any Data storage that can be detached or removed from a computer and transported. They include, but are not limited to; optical media (e.g. CDs, DVDs), magnetic media (e.g. floppy disks, tape, Zip or Jaz disks), USB drives, or flash media (e.g. CompactFlash, SD, MMC).

4. Data Segregation.

- a. EXCHANGE Data must be segregated or otherwise distinguishable from non-EXCHANGE Data. This is to ensure that when no longer needed by the contractor, all EXCHANGE Data can be identified for return or destruction. It also aids in determining whether EXCHANGE Data has or may have been compromised in the event of a security breach.
- b. EXCHANGE Data will be kept on media (e.g. hard disk, optical disc, tape, etc.) which will contain no non-EXCHANGE Data. Or,
- c. EXCHANGE Data will be stored in a logical container on electronic media, such as a partition or folder dedicated to EXCHANGE Data. Or,
- d. EXCHANGE Data will be stored in a database which will contain no non-EXCHANGE Data. Or,
- e. EXCHANGE Data will be stored within a database and will be distinguishable from non-EXCHANGE Data by the value of a specific field or fields within database records. Or,
- f. When stored as physical paper documents, EXCHANGE Data will be physically segregated

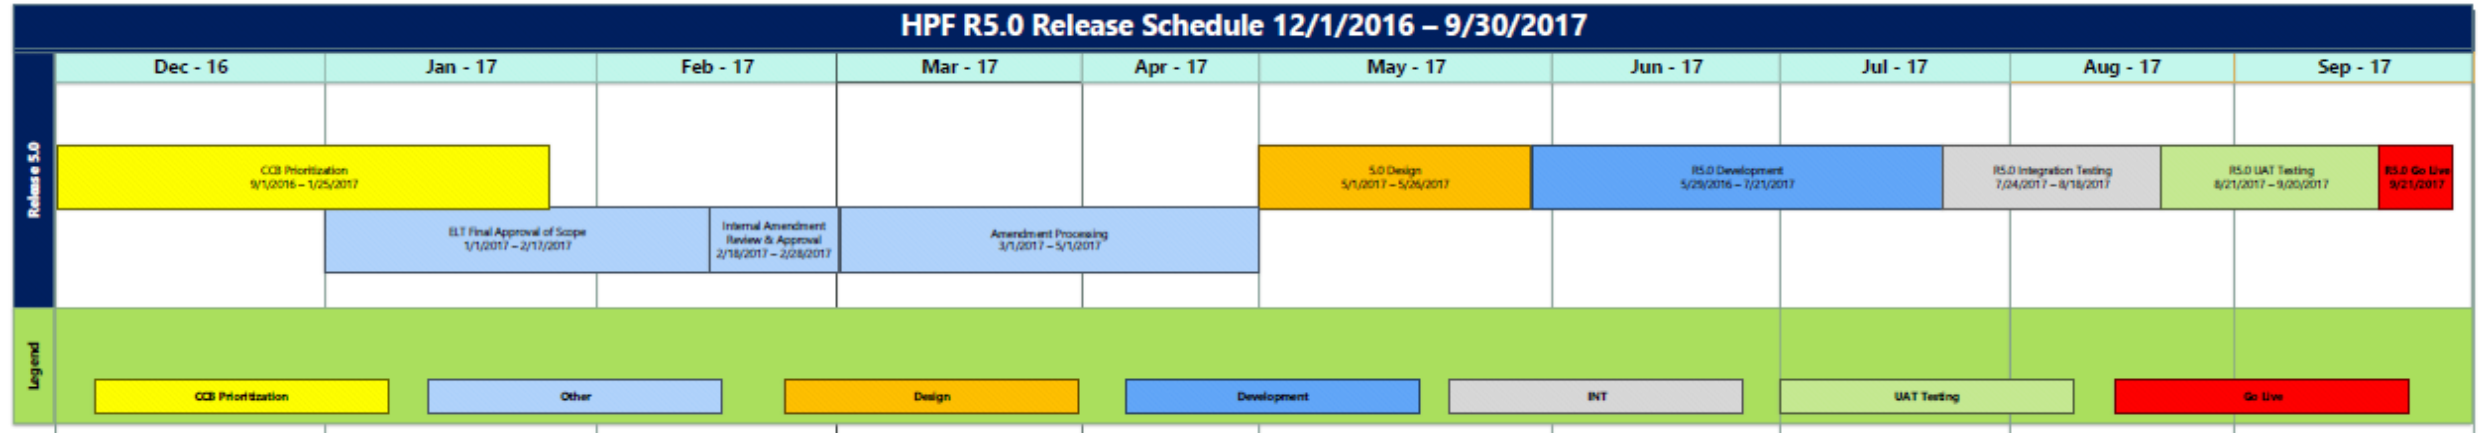

from non-EXCHANGE Data in a drawer, folder, or other container.

- g. When it is not feasible or practical to segregate EXCHANGE Data from non-EXCHANGE Data, then both the EXCHANGE Data and the non-EXCHANGE Data with which it is commingled must be protected as described in this exhibit.
5. Data Disposition. When the contracted work has been completed or when no longer needed, except as noted in 2.b above, Data shall be returned to the EXCHANGE or destroyed. Media on which Data may be stored and associated acceptable methods of destruction are as follows:

Data stored on:	Will be destroyed by:
Server or workstation hard disks, or Removable media (e.g. floppies, USB flash drives, portable hard disks, Zip or similar disks)	Using a "wipe" utility which will overwrite the Data at least three (3) times using either random or single character Data, or Degaussing sufficiently to ensure that the Data cannot be reconstructed, or Physically destroying the disk
Paper documents with sensitive or confidential Data	Recycling through a contracted firm provided the contract with the recycler assures that the confidentiality of Data will be protected.
Paper documents containing confidential information requiring special handling (e.g. protected health information)	On-site shredding by a method that renders the Data unreadable, pulping, or incineration
Optical discs (e.g. CDs or DVDs)	Incineration, shredding, or cutting/breaking into small pieces.
Magnetic tape	Degaussing, incinerating or crosscut shredding

6. Notification of Compromise or Potential Compromise. The Contractor shall have an established and documented policy to deal with the compromise or potential compromise of Data that complies with the HITECH Act of ARRA 2009. The Contractor shall provide EXCHANGE staff of such policy upon request. The compromise or potential compromise of EXCHANGE shared Data must be reported to the EXCHANGE Contact designated on this Contract within one (1) business day of discovery.
7. Data shared with Sub-contractors. If EXCHANGE Data provided under this Contract is to be shared with a sub-contractor, the contract with the sub-contractor must include all of the Data security provisions within this Contract and within any amendments, attachments, or exhibits within this Contract. If the subcontractor cannot protect the Data as articulated within this Contract, then the contract with the sub-contractor must be submitted to the EXCHANGE Contact Services for review and approval.
