Payments & Invoicing Update

Top Customer Issues

▪ Submitted Payment, Not Sent to Carrier

Actions Taken

- Increased frequency of carrier payments
- Implemented automated functionality to assist in account reviews
- Increased staffing to address customers negatively impacted

Results

- 1% QHP enrollees (~1500) impacted/using work-around since Oct. 1

Next Steps

- Modular data solution to improve payment process
- Continuing to reconcile carrier metrics

▪ Incorrect Invoice

Actions Taken

- Continuing to monitor for new and existing errors
- Data fixes deployed on a daily basis
- Code fixes to correct errors were deployed in November 2 release

Results

- 4% QHP enrollees (~6,000) impacted/using work-around

Next Steps

- Code fix Nov. 19; correct existing invoice errors by Dec. 20

Premium Aggregation

- Why Premium Aggregation?
 - One stop shopping for customers
 - Relationship to Exchange
 - Emphasizes market place over single carrier
 - Consolidates data and enrollment information
- Initial regulatory environment assumed APTC payments would come to the Exchange
- HBE considered multiple viewpoints and made an open transparent decision with carrier support
- Federal requirement for SHOP

Premium Aggregation Landscape

- Most Exchanges do not aggregate premiums
 - Federal Exchange does not
 - Only Rhode Island, Vermont, and Massachusetts aggregate premiums
 - All Exchanges aggregate premiums for SHOP
- Most carriers would prefer to perform this function
 - Some prefer this under any circumstances
 - Some would prefer Exchange handle this function if process could be greatly improved
 - A few are not currently capable of performing these functions

Timing and Decision Making

- The Exchange must be fully capable of accurate timely transfer of enrollment data to carriers
- The Exchange must continue to implement improvements to the current system to improve functioning during OE2
- Any change would take until next open enrollment
- Cambria is considering costs and benefits, impacts on consumers, and change management impacts
- The Exchange Board will review the Cambria analysis in December and plans to make a final decision in February
- Premium Aggregation would have a budget impact, but not until 2016
