Consumer Survey Results

Advisory Committee Meeting
February 5, 2015

Molly Voris, Policy Director
Michael Marchand, Communications Director

Consumer Survey Methodology

- Performed in September and October 2014
- Survey 8,116 individuals representative of:
 - QHP enrollees
 - Medicaid enrollees
 - Non-enrollees (started app, never enrolled);
Disenrolled (previously enrolled)
- Survey completed via online survey or telephone

Key Insights from Survey Results

The survey results provided a number of key insights including:

- Validating what we've heard about the user experience
- Identifying areas for improvement, including system improvements
- Capturing overall value proposition for consumers on the Exchange
- Highlighting the importance of improving the customer experience and retaining existing enrollees
- Understanding what will drive choice in the future

Overall Experience with HPF

Consumer experience was fairly positive, but we have improvements to make.

Q: I would like to get your general impressions about Washington Healthplanfinder.

Application Process

Technical issues affected ease of use during first open enrollment period.

Q: I would like you to think about your experience with the application process. How easy was this process?
