

CASCADE CARE - SUBSIDY STUDY - FUNDING MODEL REVIEW

This chart is provided in accordance with HBE's work "to develop a plan to implement and fund premium subsidies" pursuant to ESSB 5526 (2019). The chart provides an overview of assessments, fees, premiums, and taxes that have been proposed or enacted in Washington, in other states, or at the federal level.

The level of assessment, revenues, and expenditures are provided for illustrative purposes where available, and are not meant to constrain the modelling of a state subsidy funding mechanism. This chart is not intended to be an exhaustive list of all funding options available to policymakers.

| | Assessments on Fully-insured & Self-funded Insurance | | | | | Assessments on Fully-insured Insurance | | Assessment on Insurance & Hospitals | Assessment on Employers | | | Assessment on Individuals | |
