COVID Impact on Uninsured Rate

• Access to health insurance is a critical part of pandemic response (access to testing and care) and a key determinant of health

• Washington Healthplanfinder connects individuals and families to Washington Apple Health, and individual market coverage - relied on by those separated from their job; working for themselves or an employer that doesn’t offer coverage; seasonally employed; and not yet eligible for Medicare.

• Uninsured rate has increased, particularly among the newly unemployed (from 10% to 40%)

• Black, Indigenous, People of Color are being disproportionately impacted: minority owned businesses and minority employment is highest in industries most directly impacted by COVID-19
Exchange COVID Response: Special Enrollment Period for Uninsured

• Washington’s Exchange was the first in the country to open a Special Enrollment Period (SEP) for the uninsured in response to the pandemic

• Community-led engagement and targeted outreach and marketing helped 22,000 customers sign up for coverage over two-months

• Growth has been offset by increased churn to Medicaid and attrition
  • Current QHP enrollment: 187,000 (+5k from last year)
Special Enrollment Period for Uninsured: Outcomes

- Pandemic Signups Differed from Open Enrollment (OE7)
  - Most were new to the Exchange (75% vs 19% in OE7)
  - More were under 35 years old (37% vs 29% in OE7)
  - More were racially diverse (26% Black, Indigenous, People of Color, vs 16% in OE7)

GOAL

Take care of Washingtonians by offering coverage to the uninsured, keeping current enrollees enrolled, and extending current enrollments.

- Opened a limited-time, 60-day from March 10 – May 8, 2020, special enrollment period for uninsured Washingtonians to enroll in an Exchange plan through Washington Healthplanfinder.

- Launched a state-wide public service announcement (PSA) campaign, COVID-19 health coverage FAQ webpage, and handouts that respond to questions regarding coverage options based on job and income reduction scenarios.

- Outreach actively reached out to best serve Washingtonians, including providing assistor network with resources, updated and translated materials, and partnering with outside organizations to inform customers of the special enrollment period.

- Stopped the termination of individuals with conditional eligibility who are enrolled with Qualified Health Plans.

- Worked closely with the Washington Department of Health, Office of the Insurance Commissioner, Department for Social and Health Services (DSHS), and Health Care Authority (HCA) to inform of various waiver efforts and emergency rulemaking to help customers.

- Collaborated with HCA and DSHS on income reporting guidance in response to the federal stimulus bill and encouraged individuals to report a loss of income or if they received unemployment compensation.

- Safely transitioned the Exchange staff and the majority of the Customer Support Center staff to remote work.

Exchange Board Equity Statement

*Equity* is a fundamental pillar to the society we seek to build. The process of advancing toward equity will be disruptive and demands vigilance, dismantling deeply entrenched systems of privilege and oppression. We must focus our efforts on people and places where needs are greatest, especially communities of color, and go beyond remedying a particular inequity to address all determinants of health.

Our goal is that all Washingtonians have full and equal access to opportunities, power and resources to achieve their full potential.
