Type of QIS	Instructions
New QIS¹ with No Previous QIS submission	Complete the Background Information Section (Parts B and C) and the Implementation Plan Section (Parts D and E).
New QIS after Discontinuing a QIS Submitted during a prior Qualified Health Plan (QHP) Application Period²	Must complete two forms: 1. Complete a form to close out the discontinued QIS, including the Background Information Section (Parts B and C); Implementation Plan Section (Parts D and E), with the discontinued QIS information; and Progress Report Section (Part F); AND 2. Complete a new/separate form to submit the new QIS, including the Background Information Section (Parts B and C) and the Implementation Plan Section (Parts D and E).

Continuing a QIS with Modifications³	Complete the Background Information Section (Parts B and C); Implementation Plan Section (Parts D and E); and the Progress Report Section (Part F).

¹ A "new QIS" is defined as a QIS that has not been previously submitted to an Exchange, or is a QIS that is based upon a different market-based incentive(s) and/or topic area(s) than the issuer's previous QIS.

² A new QIS is required if an issuer: changes its QIS market-based incentive type or sub-type, changes its QIS topic area, reaches one or more of its QIS performance targets, the QIS is not having the expected impact, or the QIS results in negative outcomes or unintended consequences.

³ An issuer may continue with an existing QIS even if it changes the following: activities, goals, and/or performance measures.

15. Current Payment Model(s) Description

Select the category(ies)⁴ of payment models that are used by the issuer across its Exchange product line. If “Fee for Service – Linked to Quality or Value” AND/OR “Alternative Payment Models Built upon Fee for Service Architecture” is checked, provide the percentage of payments tied to quality or value.

Payment Model Type	Payment Model Description
Fee for Service – No Link to Quality and Value	Payments are based on volume of services and not linked to quality or efficiency.
Fee for Service – Linked to Quality and Value	At least a portion of payments vary based on the quality or efficiency of health care delivery.
Alternative Payment Models Built on Fee for Service Architecture	Some payment is linked to the effective management of a segment of the population or an episode of care. Payments still triggered by delivery of services, but opportunities for shared savings or two-sided risk.
Population-based Payment	Payment is not directly triggered by service delivery so payment is not linked to volume. Clinicians and organizations are paid and responsible for the care of a beneficiary for a long period (e.g., more than one year).

Provide percentage of payments:⁵

Percentage of Fee for Service payments linked to quality and value: %

Percentage of payments tied to quality and value through alternative payment models: %

⁴ Categories of payment models are defined in Alternative Payment Model Framework and Progress Tracking (APM FPT) Work Group – Alternative Payment Model (APM) Framework Final White Paper. <https://hcp-lan.org/workproducts/apm-whitepaper.pdf>. See the *QIS Technical Guidance and User Guide for the 2019 Plan Year* for examples of payment models within each category.

⁵ To calculate the percentage of payments for Fee for Service payments linked to quality and value, and/or Alternative Payment Models tied to quality and value, issuers should use the calculation methodologies defined in the *Measuring Progress: Adoption of Alternative Payment Models in Commercial, Medicare Advantage, and State Medicaid Programs (APM Measurement Effort) Final Paper*. <https://hcp-lan.org/groups/apm-fpt/apm-report/>. See Table 1 (p. 7-10) for instructions to calculate the percentage of payments for these two payment model categories.
