Package Description

What is the problem, opportunity or priority you are addressing with the request?

In 2014, the Exchange began making eligibility determinations for Medicaid clients using the modified adjusted gross income (MAGI)-based rules. Currently, over 1.6 million Medicaid and CHIP clients have their eligibility records maintained through the Exchange Healthplanfinder (HPF) website. Approximately 200,000 Qualified Health Plan (QHP) clients are also served per month. The ratio of Medicaid clients to QHP clients is approximately 89.3%. The Exchange is reimbursed for operational activities which are done on behalf of the Medicaid program.

In addition to serving as the portal for eligibility determination, existing clients continue to access the HPF to update their client records when needed, receive HPF-generated notices and other required correspondence, and access customer support services provided by the Exchange Call Center and Navigator program.

The most recent proposed APD for federal fiscal year 2019 reflects adjustments made to enrollment and services provided by the Exchange and is consistent with previously approved APDs.

What is your proposed solution?

This request is to align funding sources to reflect changes in populations served through the HPF. This request does not expand or alter current programs or services and there is no financial impact (net-zero).

What are you purchasing and how does it solve the problem?

The overall appropriation level does not change. This decision package only corrects the funding source to reflect expected revenues and the Advanced Planning Documents submitted to CMS by HCA as the state Medicaid agency in July 2018.

What alternatives did you explore and why was this option chosen?

None. It is necessary to align revenue sources to expenditures.

Assumptions and Calculations

Expansion or alteration of a current program or service

None.

Detailed assumptions and calculations

This decision package changes the source of funding for Medicaid services as follows:

- The proportion of QHP only enrollees versus Medicaid Enrollees is adjusted to reflect a higher increase in the QHP population than in the Medicaid population.

Population Served (CFC Forecast & Wakely Group)				Medicaid %	QHP %
Fiscal Year	Medicaid	QHP	Total		
FFY2017	1,613,725	157,566	1,771,291	91.1%	8.9%
FFY2018	1,627,810	174,290	1,802,101	90.3%	9.7%
FFY2019	1,559,553	187,778	1,747,331	89.3%	10.7%

- Funding for planned IT releases (6.1 and 7.0) are aligned with the populations affected by the release.

Strategic and Performance Outcomes

Strategic framework

Improved fiscal accountability for using fund sources that reflect the beneficiaries of services.
Enhanced sustainability by maintaining or reducing carrier assessment rates.

This decision package supports the Governor's goal of healthy and safe communities by benefiting over 1 in 4 Washington residents served through the Exchange, including over 1.6 million Medicaid enrollees and around 200,000 Qualified Health Plan enrollees.

Performance outcomes

Improved sustainability for the Exchange. The Exchange is seeking cost reimbursement for services provided on behalf of Medicaid enrollees, which represent about 89.3% of total enrollees
