Board Equity Statement: *Equity is a fundamental pillar to the society we seek to build. The process of advancing toward equity will be disruptive and demands vigilance, dismantling deeply entrenched systems of privilege and oppression. We must focus our efforts on people and places where needs are greatest, especially communities of color, and go beyond remedying a particular inequity to address all determinants of health.*

Our goal is that all Washingtonians have full and equal access to opportunities, power and resources to achieve their full potential.
